

KAREEM SWIDAN

FULL-STACK WEB DEVELOPER

Gaza, Palestine | +972 59 893 4925 | kareemswidan11@gmail.com

Portfolio: kareemswidan.github.io | GitHub: github.com/kareemswidan | LinkedIn: [kareem-swidan-21b064263](https://www.linkedin.com/in/kareem-swidan-21b064263)

PROFESSIONAL SUMMARY

Full-Stack Web Developer and Applied Information Technology graduate building bilingual Arabic/English products from responsive interface to secure API, relational database, automated testing, CI/CD, and cloud deployment. Portfolio includes six public products supported by 33 automated checks. Available immediately for remote and international Full-Stack Developer opportunities.

TECHNICAL SKILLS

Front End: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS, responsive design, accessibility, RTL/LTR interfaces

Back End: Node.js, Express.js, PHP, Laravel, REST APIs, authentication, authorization, role-based access control

Data and Cloud: MySQL, PostgreSQL, Prisma ORM, Drizzle ORM, Cloudflare Workers, D1, R2, Supabase, Firebase

Engineering: Git, GitHub, GitHub Actions, CI/CD, automated testing, Postman, Linux, technical documentation

PROFESSIONAL EXPERIENCE

Web Development Intern - 180 Training Hours

Electricity Company, Khan Younis | Aug 2023 - Sep 2023

- Contributed to a database-backed internal electricity-company web system as part of a development team.
- Implemented responsive interface components and organized application data for reliable operational use.
- Participated in functional testing, issue resolution, and team task coordination throughout the 180-hour placement.

EDUCATION

Bachelor's Degree in Applied Information Technology

Al-Aqsa University - College of Computer & Information Technology | 2025

- Final grade: 81.7%.
- Graduation project: SmartStay AI Palestine, an individual full-stack accommodation marketplace.

SELECTED PROJECTS

SmartStay AI Palestine | Full-Stack Graduation Project

Next.js, React, TypeScript, Cloudflare Workers, D1, Drizzle ORM, R2

- Built a bilingual accommodation marketplace with three role portals for guests, property owners, and administrators.
- Designed nine relational database tables, secure sessions, role-aware APIs, image uploads, AI-assisted planning, and database-level booking-conflict protection.
- Verified critical flows with 5/5 automated checks and deployed the production application on Cloudflare Workers.

Velora Mobility Marketplace

Next.js 14, React, TypeScript, MySQL/MariaDB, Prisma ORM, Tailwind CSS

- Built customer, business-owner, and administrator portals for vehicle-service discovery, reservations, reviews, favorites, geolocation, and inventory-aware checkout.
- Delivered bilingual navigation and a verified production build with 6/6 automated checks.
- Live: kareem-product-suite.kareemswidan11.workers.dev/velora | Source: github.com/kareemswidan/velora-mobility-marketplace

LexiGuard AI

Laravel, PHP, MySQL, Document AI, Sanctum, REST APIs

- Developed authenticated PDF, Word, and TXT upload workflows with text extraction, risk analysis, reports, bilingual document-grounded questions, ownership controls, and administrator review.
- Validated the application through 15/15 passing Laravel feature tests.

Nexora Digital Marketplace

Laravel, PHP, MySQL, Blade, Eloquent ORM, Local AI

- Implemented a bilingual storefront, product pages, shopping cart, checkout, order tracking, light/dark themes, RTL, and a privacy-first local AI matcher.
- Verified the commerce flow with 4/4 passing Laravel tests.
- Live: kareem-product-suite.kareemswidan11.workers.dev/nexora | Source: github.com/kareemswidan/nexora-laravel

DOZO Intelligence

JavaScript, Cloudflare D1, Web Crypto, Responsive UI, AI Briefs

- Created an Arabic-first product studio with secure signup and login, persisted project requests, and an authenticated AI Product Strategist workspace.
- Verified account sessions, authorization, and cloud database persistence.
